< Regarding the SDGs Guidelines for Shenzhen Project Development >

Miyakoshi Holdings, Inc. (hereafter referred to as "the Company") is promoting "World Innovation Center" (tentative name, hereafter referred to as "WIC") project in Shenzhen China, and the Company is pleased to announce that we have decided to set development guidelines along with the SDGs (Sustainable Development Goals) set up by the United Nations. For more details, please refer to the following page.

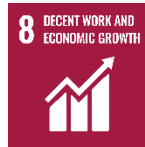

WIC is an advancing innovation platform that be able to accelerate the cooperation with local start-up companies and major Chinese companies, and it has expanding into 200 leading multinational companies in the world. In terms of designs and developments, the Company will make commitment to achieve the SDGs with WIC by utilizing the certification by the global building evaluation system in accordance with the guidelines.

What are SDGs?

The Sustainable Development Goals (SDGs) are a universal call for action, which were unanimously adopted by all United Nations Member States in September 2015. Toward the realization of a sustainable world, through estimating an ideal form by 2030 defined in 17 goals such as "Decent Work and Economic Growth" and "Industry, Innovation and Infrastructure", we are urge to act to reach that ideal form. Each icon in the guidelines is a component of the 17 goals.

WIC's commitment to the SDGs

1. **Live, work, play communities in create a Comfortable and creative environment that enhances the power of workers and businesses, not just a place to work.** WELL certification (a performance evaluation system for building environments that focuses on people's health and wellness).

2. **Sustainable development.** WIC will become environmentally friendly to people and the earth & a place that brings pride in realizing coexistence with the environment at a higher level. LEED / Green building certification (green building evaluation system).

3. **"A place resilient to natural disasters “, Gives workers a sense of security and safety.** Electrical power is supplied priority. We will secure buildings that are resistant to natural disasters, safer evacuation methods and places. Consultation is available 24 hours a day, 365 days a year. We provide disaster support (stock and distribution of emergency equipment and supplies).

4. **It will become the driving force for the continuous creation of technological and industrial innovations by bringing together 200 of the world's leading foreign-affiliated companies.** Digital platform services for open innovation by matching with the companies in WIC, leading high-tech companies, and start-up companies. State-of-the-art AI interpreter to eliminate the language barrier.
