1. Qualitative Information

(1) Explanation of Operating Results

Miyakoshi Holdings, Inc. (hereinafter "Group") has established a business presence in Shenzhen China. As the center city of the Greater Bay Area, Shenzhen is attracting a lot of attentions from the overseas. In particular, by supporting start-up companies in the fields of AI & IT, advanced medical care, electric vehicle/mobility, robotics, etc., and by investing intensively in high-tech industries, the economy has been revitalized, and Shenzhen's GDP grew 5.1% year on year in the first half of 2025.

Under these circumstances, the Group is undertaking the project called "World Innovation Center" (hereinafter "WIC") in Shenzhen City and obtained substantive development approval from the local authorities. The Group is targeting the commencement of construction in 2026, with the grand opening scheduled for 2030. In line with this, although the Group has been sequentially vacating tenants from the existing buildings, this process has been completed earlier than anticipated. The Group is now proceeding with the demolition and removal of the buildings (announced on January 7, 2026). Accordingly, the Group recognized impairment losses of 834 million yen and other demolition and removal expenses of 91 million yen for non-current assets (mainly the land use rights) held by the its subsidiary, Shenzhen Crown (China) Electronics Co., Ltd. (hereinafter "Crown Electronics")

As a result, operating revenue of the nine months ended December 31, 2025, was 384 million yen (down 52.9% year on year). Operating loss amounted to 158 million yen (- % year on year), ordinary profit was 139 million yen (down 72.6% year on year), and loss attributable to owners of parent was 938 million yen (- % year on year).

Real Estate Development Business

Crown Electronics is promoting a huge innovation project called "World Innovation Center" (tentative name: WIC), where 200 major cutting-edge foreign companies including Fortune Global 500 will gather from 30 countries to form a full-scale research and development base or marketing base or headquarters in China. WIC will support these companies to create new innovation in business and expand their business not only in China but also around the world by enjoying business services of corporate information platforms in WIC through collaboration with 14 provinces and 4 municipalities.

Regarding the block 01-01 currently proceeding in WIC, the design proposals by Nikken Sekkei Ltd. and CAPOL International & Associates Group have been completed and the demolition and removal of the existing buildings are now underway. In addition, as the People's Government of Futian District had approved both the development implementing entity and the construction indicators of Urban Renewal Unit Plan Amendment for block 01-01, the Group had essentially obtained the permit for the development project. The real estate value upon completion is estimated at 327,500 million yen (translated at 22.36 JPY/RMB which is the exchange rate on December 30,2025), and it will serve as an important foundation for our growth strategy.

Furthermore, due to the vacating of tenants and the progress in the demolition and removal of the existing buildings for the WIC project, the land use rights held by Crown Electronics will be temporarily returned and Crown Electronics is scheduled to newly acquire the 50-year land use rights for the block 01-01, where the project is currently underway. As the WIC project is being developed as an urban redevelopment by the land-use right holder, the acquisition price of the new land use rights is expected to be determined based on 251,000 square meters for R&D facilities and 90,700 square meters for commercial and accommodation facilities for which de facto development permits have already been obtained, in accordance with Shenzhen Municipal People's Government's Urban Renewal Authority Ordinance.

At the same time, the Group is actively working to attract business under the commission of Shenzhen Municipal People's Government. A total of 125 companies - comprising leading blue-chip firms primarily listed in Japan, as well as major overseas corporations including Fortune Global 500 companies from the U.S. and Europe - have expressed their intention to become tenants. The number of companies entering the WIC will rise further as the development process progresses.

In addition to rental revenue, the Group is developing an innovation business that leverages actual demand gained through its tenant recruitment activities. This business will provide various services utilizing technologies in AI, mobility, and drones possessed by tenants in WIC and major companies and start-ups gathering in 14 provinces & 4 municipalities. As an initial step, the Group plans to act as an exclusive agent, collaborating with Chinese companies that possess cutting-edge technologies in semiconductors, AI, and robotics. The Group plans to grow this business into a revenue-generating business on a par with rental revenue after WIC opens.

The Group is aiming to become a comprehensive investment company, and the WIC project has been positioned as our first investment project. The WIC project is not just a rental project. The Group aims to create a project that will be the

foundation for sustainable development of the Group through value co-creation with clients who place importance on the environment, society and governance (ESG).

Segment information is omitted because the Group has only one segment, namely Real estate development, leasing and management.

(2) Explanation of Financial Position

(Assets)

Total assets as of December 31, 2025 were 26,984 million yen, a decrease of 1,879 million yen from the end of the previous fiscal year. This was mainly due to decrease in the right of using land and cash and deposits.

(Liabilities)

Total liabilities as of December 31, 2025 were 575 million yen, a decrease of 293 million yen from the end of the previous fiscal year. This was mainly due to decrease in security deposits

(Net Assets)

Net assets as of December 31, 2025 were 26,408 million yen, a decrease of 1,585 million yen from the end of the previous fiscal year. This was mainly due to decreases in retained earnings and foreign currency translation adjustment.

(3) Explanation of Information on Future Forecasts, Including the Forecast of Consolidated Results

The forecasts of consolidated results for the fiscal year ending March 31, 2026 have been revised from those announced on May 13, 2025. For details regarding this revision, please refer to “Notice Regarding Recognition of Extraordinary Losses, Reversal of Deferred Tax Assets and Revision to Full-Year Financial Results Forecasts” released today (February 10, 2026).

(3) Notes to Quarterly Consolidated Financial Statements

(Notes on going concern assumptions)

Not applicable

(Notes on significant fluctuations in shareholders' equity)

Not applicable

(Notes on segment information)

Segment information is omitted because the Group has only one segment, namely Real estate development, leasing and management.

(Notes on statement of cash flows)

Quarterly consolidated statement of cash flows for the third quarter of the fiscal year ending March 31, 2026 is not prepared. The depreciation (includes amortization for intangible assets excluding goodwill and long-term prepaid expenses) and amortization of goodwill for the third quarter are as follows.

	Nine months ended December 31, 2024 (April 1, 2024 – December 31, 2024)	Nine months ended December 31, 2025 (April 1, 2025 – December 31, 2025)
Depreciation	236 million yen	229 million yen
Amortization of goodwill	29 million yen	- million yen

(Notes on recognition of extraordinary losses)

The Group resolved the demolition of the buildings and structures which the Group's subsidiary Shenzhen Crown (China) Electronics Co., Ltd. (hereinafter "Crown Electronics") at the board meeting held on January 7, 2026.

Concurrently, as the process of tenants vacating the premises has been completed, the Group judged that there were indications of impairment for non-current assets (mainly the right of using land) held by Crown Electronics. Accordingly, the Group wrote down the entire carrying amount of these assets and recognized the reduction (834 million yen) as an impairment loss under extraordinary losses.

In addition, provision for demolition and removal of the buildings and structures (62 million yen), and extra retirement benefits related to headcount reductions in the rental management department (28 million yen) were recorded as other extraordinary losses.
